

Dear residents,

CCSP West GmbH has been commissioned to lower your waste removal fees.

How do we do this?

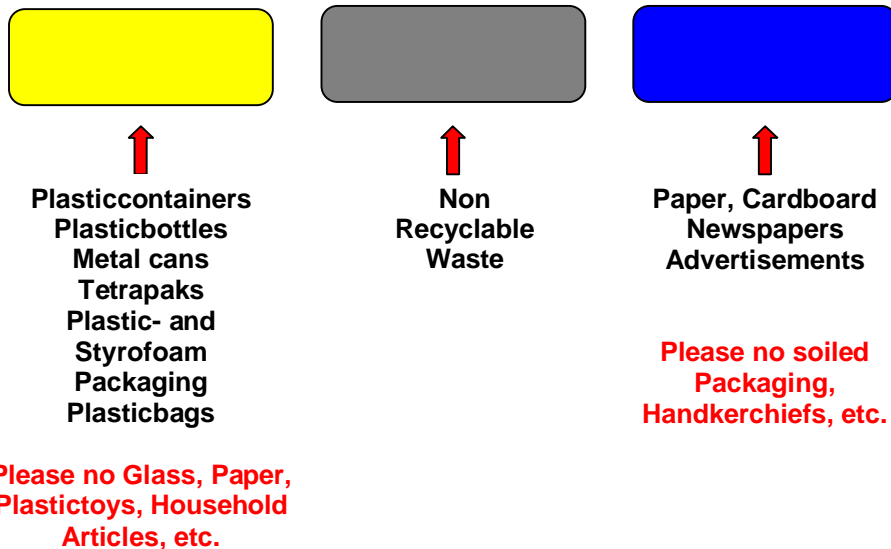

We sort out all recyclable waste which does not belong in the  grey trash bins and place it into  yellow and  blue trash bins, which are emptied free of charge.

In doing so, we reduce the number of grey trash bins used for non-recyclable waste, which you pay for.

When you receive your next annual list of fees for the year, you will see that the waste removal fees have been lowered.

Every time we service the trash bins, we also pick up any trash lying around on the ground and help you to keep the place clean.

Please do your part in reducing these fees, after all, it is your money! Please place all garbage in the trash bin as indicated in the illustration below:
